

HOUCINE AOUASSAR

SENIOR FRONTEND DEVELOPER

SUMMARY

Senior Software Engineer with 5+ years of experience in high-performance web architecture, focusing on the Esports and Web3 industries. Proven history of closing the gap between legacy and modern, scalable solutions with Next.js/React. Experienced in deploying mission-critical codebases that focus on speed, technical scalability, and user experience. Key skills include leading technical migrations, improving platform performance, and integrating real-time functionality.

EXPERIENCE

PGL ESPORTS SRL, REMOTE — SOFTWARE DEVELOPER

Sept 2024 - Nov 2025

- Post Acquisition Integration: Spearheaded the technical integration of Esportal with PGL, ensuring zero downtime for global users.
- Nextgen Migration: Coordinated the migration of the core admin panel from legacy class-based React to a hooks-based system, enhancing development and debugging productivity.
- Real Time Control Systems: Created a mission-critical internal application for managing real-time stage events, such as matches, audio, and communication, for Tier 1 tournaments.
- Scalability & Expansion: Advocated for platform expansion, allowing the system to scale and handle massive user spikes during global tournament events.
- Performance Optimization: Successfully migrated legacy Redux to RTK Query and mutations, adding caching layers to reduce boilerplate and improve API performance.
- Tech Stack: Next.js, React, TypeScript, GraphQL, RTK Query, Pusher-js, Go, Jest, Tailwind, Storybook.
